

## **MASTER PLANNING TASK FORCE UPDATE**

Saint Mark's Annual Parish Meeting, Sunday, February 24, 2008  
Presented by Judy Whetzel, Co-Chair

As one of the Co-Chairs of the Saint Mark's Master Planning Task Force serving with fellow Co-Chairs, John Nesholm and John Hoerster, it is my pleasure to share with you today that the members of the task force remain positive and engaged in our work for the master plan for the cathedral.

At our meeting in December, it was determined that it was appropriate to pause for the period of time necessary for Bishop Donovan's assessment. During this pause, I am attending the Mission and Strategy Committee meetings representing the task force. The Mission and Strategy Committee is working on updating Saint Mark's Strategic Plan. As members of the parish you will have the opportunity to have input in this committee's process. Once the Strategic Plan is updated; it will be presented to the Master Planning Task Force for incorporation in our work.

Once Bishop Donovan's assessment process is complete, the Co-Chairs will meet with the Vestry to discuss our next steps to move forward. I want to express and assure you that the members of the Master Planning Task Force believe in the extraordinary opportunity and potential that Saint Mark's Cathedral has as an institution. Their commitment would make you very proud.
